PROFILE

Full-Stack Developer specializing in Next.js, Node.js, and TypeScript, focused on building scalable, user-centric applications with strong performance, clean architecture, and clear code structure. In my thesis project I improved a booking flow by reducing the required steps from 6 to 2 through a dynamic interface that adapts in real time to user input.

EXPERIENCE

Yemaya Labs | Full-Stack Developer (CTO)

2026

- Led IT architecture and operations; built scalable platforms for data collection and multilingual analysis.
- Designed full-stack systems with Next.js, Node.js, and TypeScript; implemented GDPR-compliant data handling.
- Established CI/CD pipelines that took the product from idea to stable launch.

FixMeApp | Full-Stack Developer

Internship & Thesis | 2025

- Developed a scalable booking system in Python and FastAPI focused on low latency and stable performance.
- Designed dynamic UI components to streamline user flows.
- Responsible for feed development in a monorepo with Next.js and React Native.

Skolverket | Front-End Developer

Internship | 2024 | Stockholm

- Worked in an agile team on the development and improvement of Skolverket and Utbildningsguiden.
- Lead developer for a React application enabling search, filtering, and comparison of upper-secondary schools.
- Focused on WCAG, accessibility, and user experience.

Coop | Sales Associate

2020–present | Bagarmossen

- Responsible for customer flow, checkout operations, customer service, and sales.
- Focus on efficient service and customer experience.

EDUCATION

Full-Stack Developer | Företagsuniversitet

2023–2025 | Stockholm

Practice-based vocational training in full-stack development, database technologies, and agile methodologies. Achieved VG in all courses.
